2.0 Introduction

2.1 Ruskin College is committed to providing the best possible service for its students. In order to do this, the College wishes to be informed when it fails to meet student expectations.

2.2 This procedure covers the action to be taken should a student wish to complain to the College about anything that happens to them in College. For matters connected with the assessment of academic work, the student would appeal. The appeal procedure also applies to decisions related to practice learning.

2.9 The College will monitor and evaluate the effectiveness of the academic appeals and complaint procedures and reflect upon the outcomes of those procedures for enhancement purposes. The College has established different procedures to deal with academic appeals and complaints and these are outlined in this document. Appeals relating to admissions are covered in the Admissions Policy.

3.0 Scope

3.1 Ruskin College requires all complaint or academic appeal proceedings to be conducted fairly. In order to secure fairness to all parties, those investigating or deciding on them need to act impartially and identify any actual or potential conflict of interest or any circumstance in which they might materially benefit from the outcome.

3.2 The College is committed to seeking early resolution of complaints and academic appeals where it is possible to do so.

3.3 Students can raise matters of concern without the risk of disadvantage but the College will not consider anonymous complaints.

3.4 The College will endeavour to ensure that complaints and academic appeals are dealt with in accordance with the timescales outlined in this document (below). At certain times of the year, when specific staff may not immediately be available, the College will make the arrangements as soon as practically possible.

3.5 Complainants and appellants are required to be truthful and courteous at all times during the process particularly when preparing cases and talking to the Panels (where applicable). Documentation and other information as required should be submitted by the stated deadline. The

Appeal Panel has the right to not consider documentation that has been submitted after the deadline. The College will take very seriously any vexatious claims and they may be dealt with under the Student Disciplinary Policy.

3.6 Complaints and appeals are generally regarded as confidential with procedures and outcomes treated on a 'need-to know' basis within the College.

3.7 Complainants or appellants with disabilities can ask the Head of Student Services to make adjustments to the process to accommodate any reasonable need.

Appeals

3.8 If a student thinks they have grounds for an appeal, the Examiners may be asked to reconsider their decision. Appeals must be based on:

- o Additional information about a student's circumstances which has not been taken into account and which the student was unable to divulge before the Examination Board determining the result at that level reached its decision and/or
- o Evidence of a flaw or irregularity in the assessment procedure.

3.9 Disagreement with the decision of the Examiners cannot of itself constitute grounds for an appeal.

3.10 To appeal, the appellant must put their case in writing on the correct form (available as below in document) together with any evidence, to the Head of Student Services within two weeks of the date on the letter confirming the result. The College will only communicate with the appellant via their Ruskin College email address.

Complaints

3.11 In the first instance, the College expects a complainant to discuss their dissatisfaction with the person believed to be causing it. Most difficulties can be resolved quickly and easily by doing this. If the complainant does not feel able to do this, or if they are still dissatisfied, please follow the procedure set out below.

3.12 This procedure covers the action to be taken should anyone wish to complain to the College about anything that happens in College, other than matters connected with the assessment of academic work, which is governed by the appeal procedure.

4.0 Definitions

4.1 An Academic Appeal is a request for the review of a decision of an Examination Board. An Examination Board is an academic body which makes decisions relating to student progression, assessment and awards. An Academic Appeal under this process can only be made by a Higher Education student of the College. An Academic Appeal must be made in the required format

within ten working days of the date of the letter giving the outcome of the Examination Board.

4.2 A Complaint can be made by a student, an applicant or a member of the general public and is an expression of a specific concern about any aspect of their own relationship with the College. A Complaint relates to the specific treatment of an individual and is different from critical feedback about a programme which is welcomed by the College as part of its quality assurance process (in person to the module tutor or Programme Coordinator, through your Class Rep at the Programme Board or when you complete your Module Evaluation). A Complaint may be raised by applicants at any time during the admissions procedure or for up to 1 month following its completion. Complaints by the general public can be raised for up to 1 month after the incident which is the subject of the Complaint. These complaints are subject to a different process from the one available to students. Students can raise a complaint for up to 6 months following the completion of their course or withdrawal from the University.

4.3 In the case of both Appeals and Complaints, should the appellant or complainant not be satisfied with the outcome of the internal College processes, they may raise the issue through the processes of the relevant validating body or if a Completion of Process letter has been issued by the College or a validating body, direct their complaint to the Office of the Independent Adjudicator.

APPEALS

5.0 Procedure

5.1 Upon receipt of the appeal form from an appellant, the Academic Registrar will convene an appeal panel to hear the appeal normally within ten working days weeks of receipt of the student's appeal. They will invite a response from the relevant Programme Co-ordinator.

5.2 The panel will consist of an independent chair, normally a member of the College Senior Leadership Team, an external advisor to the College on academic matters and a tutor from another academic area of the College. Where the appeal concerns practice learning, there will be an additional panel member drawn from a relevant professional organisation. No member of the panel will have had any previous involvement with the matter in question.

5.3 The student's appeal and the response of the Programme Co-ordinator will be sent to the panel in advance. The appeal panel will have the opportunity to seek further evidence and to seek clarification from any member of staff or other sources (e.g. plagiarism meeting), as appropriate. All evidence to be considered will be sent to the student at least seven days before the appeal panel hearing.

5.4 The appellant will have the right to be present throughout the appeal hearing, though they will be excluded from the portion in which the panel deliberates to reach its final or any interim decision. The appellant has the right to be accompanied by a student union representative or a friend if they so wish.

5.5 The Appeal Panel will only uphold an appeal on the following grounds:

- that the appellant has established to the satisfaction of the Panel that performance in the assessment was adversely affected by illness or factors which the appellant was unable to divulge before the Examination Board reached its decision. In such a case, the appeal must be supported by medical certificates that cover the time period being considered or other relevant and timely documentary evidence,

and/or

- that the Panel is satisfied on the evidence produced by the appellant that there has been a material administrative error, or that the assessment was not conducted in accordance with the regulations or that some other material irregularity has occurred.

5.5 Should the appeal be upheld by the Appeal Panel, the Examination Board, at its next meeting and after considering the evidence and advice of the Panel, will consider whether to amend or confirm its original decision about the award at this level.

5.6 The Head of Student Services will notify the appellant of the outcome of the appeal, normally within seven days of the hearing. The head of Student Services will further notify the appellant of the outcome of any resultant reconsideration by the Examination Board, where applicable, normally within seven days of the Board having met.

5.7 At this point, the appellant will be issued with a Completion of Procedures letter as required by the Office of the Independent Adjudicator for Higher Education. A template of this letter is included below. The complainant is then able to bring the matter to the attention of the Office of the Independent Adjudicator.

6.0 Outcomes

6.1 The appellant will be contacted in writing by the College within the above outlined timescales. The College will clearly outline the process undertaken and evidence reviewed and will state the outcome of any investigation.

6.2 An appeal may be upheld or not upheld. If an appeal is upheld, the Head of Student Services will contact the appellant with a plan for the resubmission or reconsideration of the work that was the subject of the appeal. The College may allocate examination board Chair's action to ensure a student may resubmit work at their earliest opportunity and remain in sequence on their programme.

Completion of procedures

6.3 Upon the completion of the College's internal processes relating to appeals, the appellant will be issued with a Completion of Procedures letter as required by the Office of the Independent Adjudicator for Higher Education. A template of this letter is included in the appendix to this policy. The complainant is then able to bring the matter to the attention of the Office of the Independent Adjudicator.

6.4 If an appellant remains unsatisfied with the outcome and all the College's internal appeals procedures must have been exhausted, they may refer their appeal to the relevant validating body (The Open University (OU) or Newman University (NU)). In this event the appellant must refer to the relevant University appeals procedure. These processes are available on the College's intranet
